

## Wealth Architecture™ Process

### It's about how you feel...

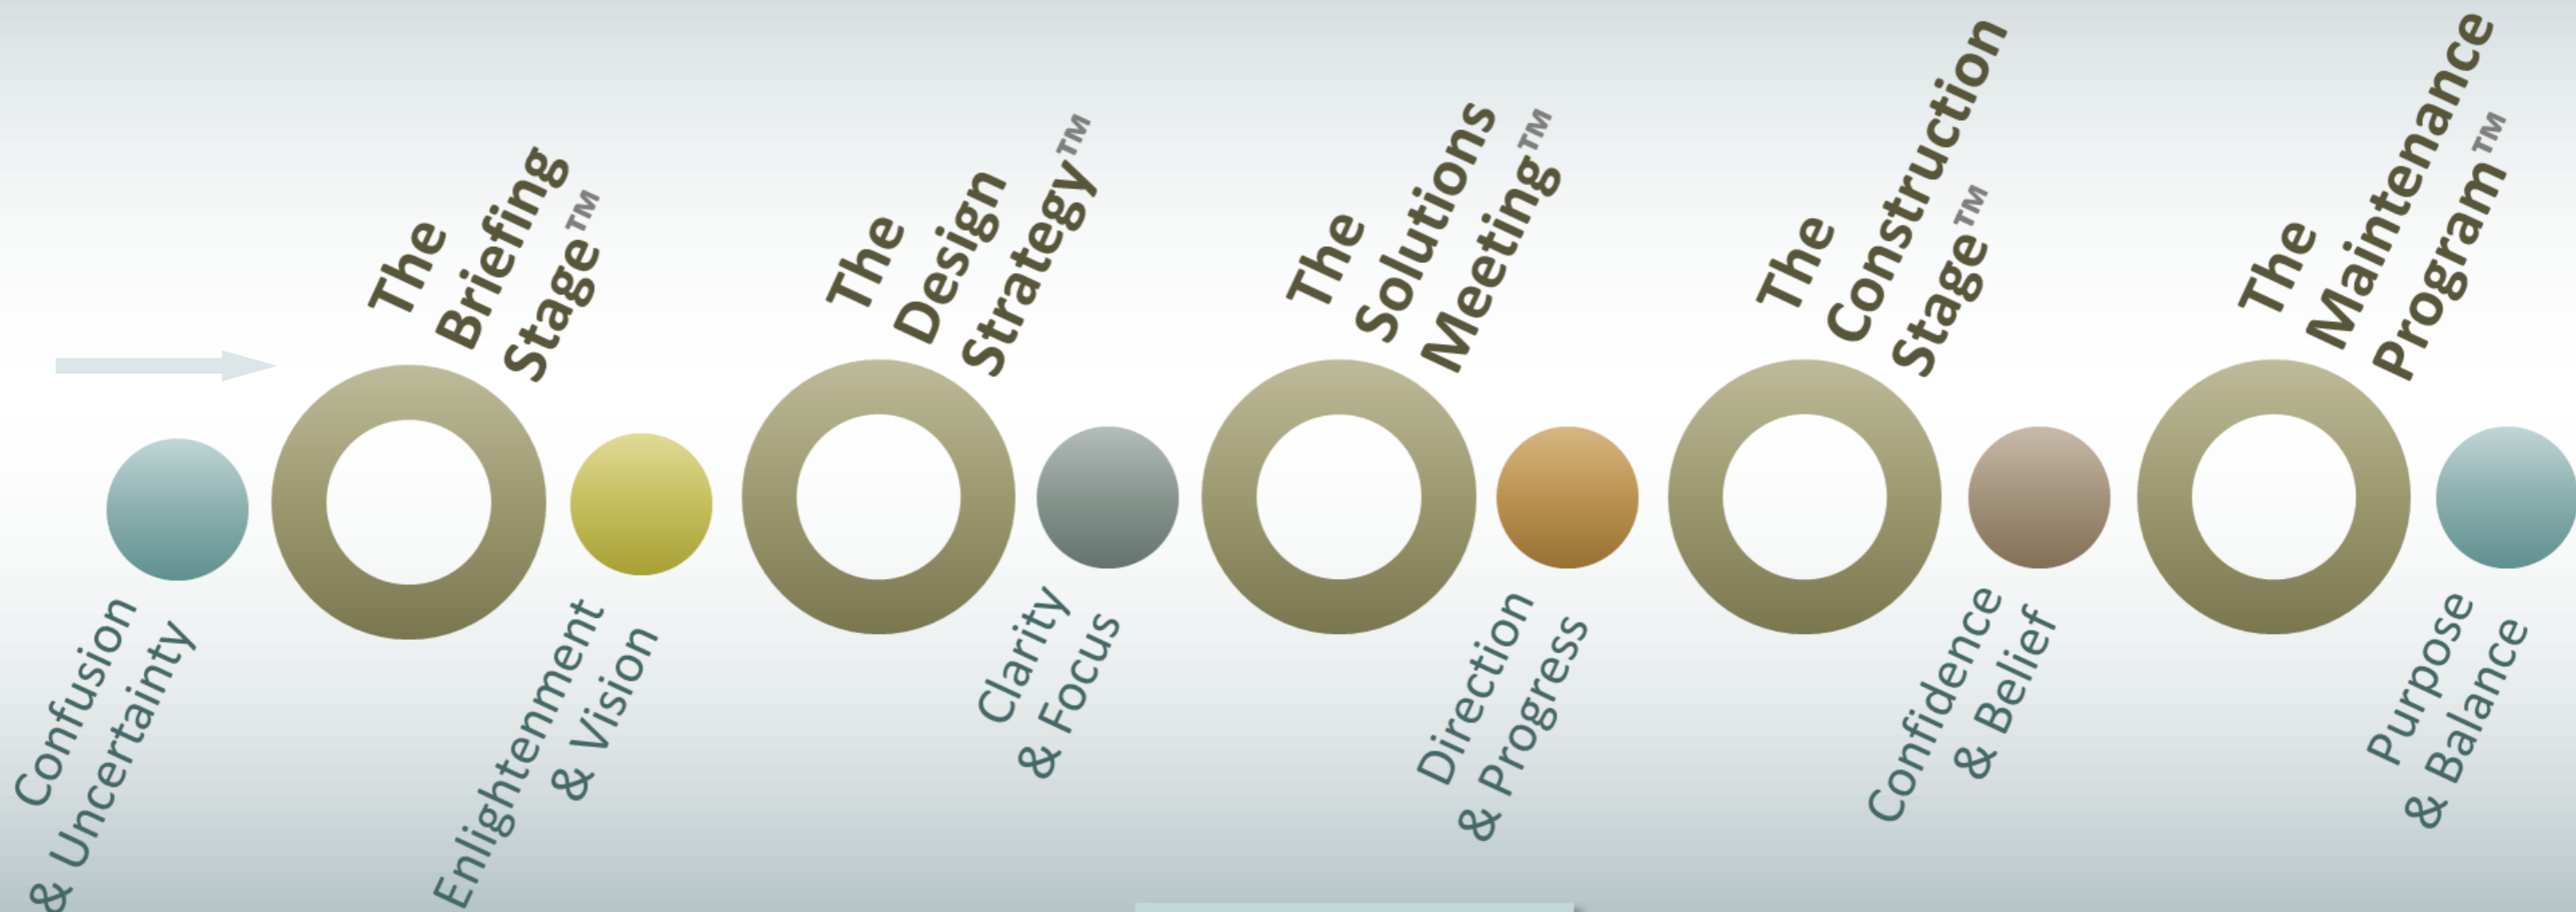

We recognise that there are two key components to successful financial planning — *what we do* and *how you feel as a result*.

As well as achieving great solutions and results, we believe it is equally important for you to *enjoy* the Wealth Architecture™ process.

This chart outlines how our clients tend to feel *before* they meet us, *during* the process and *ongoing* in the lifetime relationship that we offer at Anand Financial Architecture Wealth Architecture™.

We look forward to designing, furnishing and maintaining your financial home with you...

### Our Stages

### Your Feelings

See our separate [Wealth Architecture™ Flowchart](#) for more details and costings of each Stage
